

Notes:

Viewing the AUM clips slide shows.

When you click on the AUM clip links, the file will open in the browser, as a pdf. Many browsers don't have settings for automatically advancing the slides and showing transitions. That means that in the browser, there may only be a way to advance the pages manually, one by one.

There is an option to view the AUM clips, which are part of the complete AUM presentation, as slide shows with transitions. Save the file to your computer and open it with Adobe Reader, which is free from Adobe <http://www.adobe.com>, or open the file in Acrobat.

In either program, choose Preferences and change to these settings:
Edit > Preferences > Categories > Full Screen > Advance Every (4) seconds.
Full Screen Transitions > Default transition > Fade

I plan to have two versions of the complete presentation available for sale.

1. A projector quality display, which was the viewing quality at AUM. The version has a lower file sizes and could be sent through email.
2. A higher quality computer screen display on a CD or through a large file download.

For questions or presentation requests and pricing, please email me from my web site.

Always,

Margaret
